ABOUT ME

I'm a Full Stack Developer, I have 1 years of experience as a Frontend Developer. I love everything that has to do with the latest developments in software development and especially in the Javascript world.

I have experience in the design & architecture of frontend technologies using NextJs, ReactJs with Advanced Javascript on frontend & backend with Node & Express and cloud platforms like MongoDB and Firebase. I'd love to work with people, having passion and interest in the latest technologies, frameworks, and products.

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

HTML, CSS/SCSS, Tailwind CSS / Bootstrap / ReactJs / NextJs / Javascript / NodeJs / ExpressJS / MongoDB / MySQL / NPM Packages / Data Visualization & Dashboards Using React charts / Realtime Apps using Firebase / Restful WebAPIs

PROJECTS

MindCare

MindConnect is an anonymous mental health platform that allows users to log in with an alias, track their emotional well-being using the PHQ-4 assessment, and receive AI-driven mood insights. It features real-time peer group chats with risk-word detection, a clinic locator map, and curated blog resources to support users in managing stress, anxiety, and depression.

Major Technologies:

- React.js
- TailwindCSS

- Node.js
- Express.js
- MongoDB
- Socket.IO
- Google Maps API / Leaflet
- Chart.js

MediPredict – Online Doctor Appointment Platform:

MediPredict is an online platform for booking doctor appointments from home. It offers a simple interface for browsing healthcare professionals and scheduling consultations and also real-time messaging Audio, Video call with language translation.

Major Technologies:

- React.js
- Node.js
- Express
- MongoDB
- Cloudinary
- Nodemailer
- WebRTC
- Socket.IO

Digital Will & Asset Transfer System

Digital Will & Asset Transfer System is a secure web application that enables users to create and store encrypted digital wills, assign trusted nominees, and automate asset handover through inactivity detection. The platform provides a seamless experience with a futuristic UI, real-time verification tracking, OTP-secured nominee access, and optional video messages for added trust. It ensures privacy, transparency, and control over digital legacies through features like 2FA, encrypted vaults, and a public access portal for nominees, all within a responsive and minimal design that supports both light and dark modes.

Major Technologies:

- React.js
- TailwindCSS
- Node.js
- Express.js
- MongoDB
- Cloudinary
- Multer
- Nodemailer

Edusity - University Website

Edusity is a university website providing course information, campus information enrollment processes, and event updates.

Major Technologies:

- ReactJs
- Firebase Database

FitnessClub -Gym Website

FitnessClub is gym website with class schedules, membership plans, and trainer profiles.

Major Technologies:

- ReactJs
- Firebase Database
